*Do not administer phenylbutazone and flunixin at the same time (unless used according to section 8). Allow seven days withdrawal from one before using the other. See guideline details.

Only a single NSAID should be administered within 72 hours of showing the horse to avoid NSAID stacking.

When administering a single dose per 24 hours (unless specified otherwise) the administration should be 24 hours apart.

Whenever any NSAID is administered that is not permitted to be used, it should not have been administered during the seven days prior to competing (unless used according to section 8).

The maximum treatment time for any of the permitted medications is five days, with the exceptions of diclofenac and firocoxib. Diclofenac can be administered for 10 successive days, and firocoxib can be administered for 14 successive days.

Caution is urged when using compounded medications with varying administration routes not specified in the chart. Only the listed administration routes with non-compounded medications have been evaluated for the dose and time recommendations.

THIS GUIDE IS FOR REFERENCE ONLY. PLEASE CONTACT A LICENSED VETERINARIAN BEFORE ADMINISTERING ANY MEDICATIONS. THE COMPLETE POLICY IS AVAILABLE ON NRHA.COM/WELFARE.
